Alibi 3000 Series SwitchBox NVR

Simple to install - Plug & Play IP - Auto-detect and display IP cameras

This SwitchBox NVR delivers an IP network recording solution—without the complexity. The SwitchBox NVR features an integrated 4- or 8-port PoE (Power over Ethernet) network switch to power the IP network cameras directly through the network cable—eliminating the need to purchase a separate network switch.

6 REASONS TO SWITCH TO IP!
Alibi makes it easy!
SEE MIDDLE INSERT FOR DETAILS

NEW FROM ALIBI
16-CHANNEL SWITCHBOX NVR

Introducing the latest new product from Alibi™!

Alibi SwitchBoxes combine a PoE switch, NVR, and video management software in one easy-to-install solution! The **NEW Alibi 5000 Series SwitchBox NVRs** power up to 16 IP cameras through the integrated PoE (Power over Ethernet) switch.

Like the Alibi 3000 Series NVR, the 5000 Series features a simple user interface, a powerful client software, and a FREE smart-phone application for real-time access from anywhere. Additionally, the 5000 Series adds scalability, recording resolution, and storage for larger applications.

So, which solution is right for you?

See the simple quick-compare chart below—or call our trained sales consultants for help!

3000 Series **VS** 5000 Series

	3000 Series		5000 Series	
Channel Count	4	8	16	Additional channels allow you to add more cameras as your needs grow.
Alarm Inputs/ Outputs	X		16 inputs/4 outputs	Alarm inputs connect your DVR to an alarm system, saving you bandwidth by only recording when your alarms are triggered.
Recording Resolution	Supports up to 3.0MP*		Supports up to 5.0MP	Higher resolutions allow you to zoom into your video and maintain significant detail.
Internal Storage	Up to 8TB		Up to 16TB	More storage capacity allows you store more video—higher resolution, or longer time periods—internally.
eSATA Port (External Storage)	X		Yes	Add external storage for video archiving—a convenient option if you need to store video for long periods of time.
Recording Performance	20 Mbps	40 Mbps	80 Mbps	If you plan on recording the full resolution your cameras/recorder are capable of, you may need higher recording performance.*
Recording Viewing Output Capacity	60 Mbps	80 Mbps	240 Mbps	The more people you have viewing the system simultaneously, the higher the recording viewing output capacity should be.
Recommended Applications	Residential Small Business Daycare Centers		Multi-user Schools Large Business	

*Through the integrated PoE switch.

***The *Network IP Security Camera System Bandwidth Calculator* at securitycamerasdirect.com can help you determine the recording performance you'll need!**

Turn the page to learn 6 reasons to SWITCH to Alibi SwitchBox NVRs!

6 REASONS TO SWITCH TO IP

ALIBI™

There's never been a better time to make the switch from analog to IP. Alibi has the simple, smart features that make IP as easy as analog—or easier!

2-year Warranty

1 Simple-to-Install NVR

Integrated PoE switch provides TRUE plug-and-play simplicity: connect your Alibi™ or 3S cameras to the PoE network ports and you're done! The embedded software automatically finds and displays your connected cameras, for a virtually fool-proof installation.

Integrated PoE switch makes installation easy! Just plug in the IP cameras and you're ready to go!

EASY as ANALOG!

2 Intuitive, Pre-installed Software

Pre-installed video management software runs off a stable Linux-embedded operating system. It is intuitive and easy to use, with the features customers are asking for:

- ✓ Scheduled recording
- ✓ Remote viewing
- ✓ Event search and email notification

www.securitycamerasdirect.com/alibi to see more online!

3 ZERO Licensing Fees

There are no fees associated with adding cameras—use as many channels as you want! All channels are pre-licensed and fully-enabled. Simply plug in your cameras—now or anytime in the future—and you've got video!

4 Superior Video Quality

All our other features wouldn't be worth much if the video on your box isn't great! The Alibi SwitchBox supports up to 5.0MP resolution and delivers high-quality video that allows you to zoom in for forensic-level detail.

The higher the resolution, the further you can zoom in and maintain significant detail.

5 Scalable & Future-proof

Currently available with up to 16 channels, and a 32-channel version launching in Summer 2014, Alibi Switchboxes have the features you need for a system that will grow with your needs:

- ✓ Common interface across analog and IP lines
- ✓ Up to 16TB internal storage space for weeks of video data
- ✓ eSATA port for additional external storage* for long-term archiving **16-channel NVR only*

6 Unbeatable Prices

Compare the Alibi™ SwitchBoxes with any integrated-switch NVR on the market, and we think you'll be impressed! PoE switches, an accessory that all IP-based recorders require, can add significant cost to your purchase. By integrating the switch and offering our Alibi SwitchBoxes at incredible prices—rivaling the cost of an analog system—you can save THOUSANDS!

Alibi Witness Mobile App

What is an Open Box Product?

An open box product is a product that a customer has previously purchased and returned to us. They have been tested and reconditioned to ensure full functionality. These products are considered to be in good condition, but may have cosmetic damage that will not affect their performance.

Thorough Testing

Our technicians carefully inspect each open box product. Products are reconditioned (if needed) to meet our high quality standards, then thoroughly tested to ensure they are in good working order.

30-day Money-back Guarantee

We offer a 30-day money-back guarantee for every open box product. If you are not happy with your purchase, simply return it within 30 days for a full refund. As with any return, please call us to obtain a 'return merchandise authorization' (RMA) to begin the return process.

90-day Warranty and Lifetime Technical Support

Open box products include a 90-day warranty and free lifetime US-based technical support.

Quantities are limited - go online for current availability

How a returned product becomes certified Open Box product:

1. Our in-house technicians inspect the product for damage
2. Product is rigorously tested to ensure full functionality
3. If the product passes all the tests, it is considered certified
4. After certification, product is repackaged with all manuals and accessories

How to Buy

DIGIOP ELEMENTS™ is available as a stand-alone management system or pre-installed on our recording solutions – choose the option that's right for you.

DIGIOP ELEMENTS and 4 IP Channel Activation Licenses + Open IP License

Digital Video Management Software for Hybrid/NVR Systems

» Includes 4 IP Channel Activation Licenses
» Expandable to 32 Channels
» Add an Open IP License to enable ALL channels!

See online for recommended hardware specifications.

DESCRIPTION	SKU	PRICE
DIGIOP ELEMENTS + 4 IP Licenses	DE8XX4	$495.00
DIGIOP Open IP License	DE8XX-OIP	$900.00

Pre-installed on ALL DIGIOP Recording Solutions!

DIGIOP server solutions are pre-installed with DIGIOP ELEMENTS to take advantage of Open IP License:

- ALL channels enabled
- Licenses NEVER expire
- NO recurring fees
- **PLUS!** System-based upgrades for future enhancements

With DIGIOP, you only pay for what you need, and only pay once!

Innovative, Feature-Packed Recording Solutions

Enhanced performance, flexibility & scalability!

DIGIOP has introduced a completely new line of NVR and hybrid recording servers, loaded with powerful new features designed to enhance your surveillance system and lower your total cost of ownership.

Server chassis can be rackmounted or configured desktop units

Loaded with powerful new features:

Never Pay for Camera Licensing Again!

All DIGIOP servers feature DIGIOP's unique **Open IP License.** When you purchase a DIGIOP server, all channels are open—enabling you to add as many cameras as you need (up to the 32-channel max per system), WITHOUT having to purchase additional licenses. Plus—there are NO recurring fees!

FlexVR™ Use Any Combination of IP and Analog Cameras

FlexVR™ Hybrid Servers allow you to choose how many analog and IP cameras you want to connect to the system—within the range of the total number of channels supported by the DVR. Use FlexVR servers to support your transition from analog to IP, while utilizing your existing investment.

Extended Storage Options – Up to 14TB!

Larger hard drives allow you to store more video footage for a longer period of time. These new DIGIOP servers feature storage options up to 14TB.

Supports Live-streaming

Use DIGIOP servers as live viewing stations—our Intel i5 and i7 processors can withstand the demands of live local view, without affecting performance.

All Systems Pre-Installed with DIGIOP ELEMENTS

ALL DIGIOP recording solutions ship pre-installed with DIGIOP ELEMENTS, our powerful VMS suite. Find your video faster with multiple search options and integrate with POS, alarms, and more!

DIGIOP® IP Recording Solutions

Designed with a scalable, easy-to-manage architecture, these DIGIOP® network video recorders can meet any challenge—from a four camera installation at a single location to an expansive global network of more than 5,000 locations.

Di Series NVR Recording Solutions

Up to 32 Cameras per System

- » Featuring Open IP License! 32 IP licenses included, fully enabled
- » Fully licensed to 32 channels of IP video
- » Core or Performance Options Available Comes pre-installed with DIGIOP ELEMENTS VMS suite
- » Supports live-streaming directly from the recorder
- » Includes 2TB storage - extended storage options available (up to 14TB)
- » Desktop or rack-mountable

DIGIOP® FlexVR™ Hybrid Solutions

Unlike traditional hybrid DVRs, DIGIOP's FlexVR™ Hybrid Recording Solutions allow you to configure each channel to support an analog or IP video camera—at any time—allowing for a seamless transition to IP video at a pace that fits your needs or budget.

Features & Benefits:

» FlexVR™ technology – each channel supports IP or analog video
» Open IP License – ALL licenses are included, and fully enabled
» All systems come pre-installed with DIGIOP ELEMENTS
» Supports live streaming directly on the recorder
» 2U & 3U rack-mountable chassis

Includes 3-year warranty and 30-day money-back guarantee.

DM Series Hybrid Recorders

» 16 channel captures video at 480ips; 32 channel captures video at 960ips @ CIF
» MPEG-4 video compression
» Includes 2TB storage (capable of up to 14TB)

- 11TB +$2,700
- 14TB +$3,600

What model is right for me: Core vs. Performance?

Core systems use an i5 processor, whereas Performance models have an i7 processor. A faster i7 processor allows you to view more live channels at one time at full megapixel resolution. If you want to live-view more channels directly on the box, Performance is for you.

Core i5 processor	Performance i7 processor
Live-view up to **8 streams** @ 7fps from 2.0 MP cameras*	Live-view up to **16 streams** @ 7fps from 2.0 MP cameras*

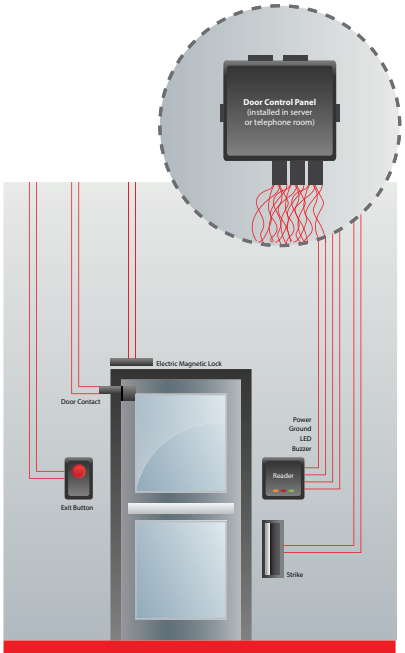
*More streams available with lower resolution settings

Change the Way You Think
About Access Control

infinias
Simple. Scalable. Secure.

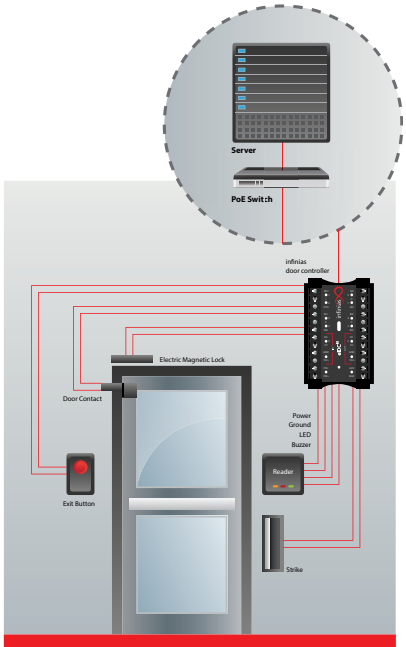
Traditional access control means huge piles of multi-colored wires. IP-based access control has changed all that!

When thinking about traditional access control, most consumers and installers imagine miles of multi-colored cable, all leading from each door to a dusty server closet. infinias IP-based access control changes all that. Leveraging Power over Ethernet (PoE), the infinias eIDC[32] door controller only requires a single network cable running to your door. Avoiding the tangle of wires, infinias IP-based access control delivers tremendous cost-savings along with the scalability, flexibility, and power security professionals have come to expect from IP-based solutions.



Traditional Panel-based Access Control

- × "Home-run" cabling required for door & each device
- × Devices require an independent power source
- × No hardware failover protection
- × Manual troubleshooting
- × Limited door licensing structure



infinias IP-based Access Control

- ✓ Single Ethernet connection from door to PoE switch
- ✓ Devices powered by controller
- ✓ Failover protection
- ✓ System health monitoring and alerts
- ✓ Easy permissions & schedule management
- ✓ Unlimited door licensing

Now Available with
MOBILE CREDENTIAL

Remotely lock & unlock doors with your smartphone or tablet

SAVE UP TO 30%

over the cost of traditional access control!

STANLEY

Great add-on to your existing infinias solution!

Stanley EL Series Electronic Lock

- ↘ Requires no special tools to install
- ↘ Wireless operation minimizes cabling
- ↘ Battery-operated with up to 2 years of battery life

Stanley EL Series Wireless Electronic Door Lock with Brushed Chrome Finish

Provides a simple to install, cost-effective wireless security solution for controlling physical access

- » Single door unit has a 2.4 GHz frequency range
- » Intelli-M Access 4.0 access management software provides easy management of user access permissions
- » Features a built-in Wiegand card reader
- » AES 128-bit encryption for secure wireless transmissions
- » Small Format Interchangeable Core (SFIC) enables mechanical key override
- » Uses 4 AA batteries (included) with up to 2 years battery life with standard usage
- » Supports industry-standard 26 bit 125 KHz Wiegand proximity cards
- » Supports up to 1,000 users per lock

The wireless lock comes with a 2-year mechanical warranty and 1-year electronic warranty, 30-day money-back guarantee and free lifetime US-based technical support.

TIRADE®
Screaming Fast Wireless Video

Never Run Cables Again.

Tirade wireless video products allow you to place cameras wherever you need them, without having to run video cable. Up to 90Mbps of true throughput and 25+ IP cameras on a single wireless network makes Tirade an effective and powerful solution.

- There's no need to excavate and run video cables
- The video signals are digitally secured protecting you from hackers and criminals
- It's easy to set up

Tirade allows you to put cameras wherever you need them and send the video signal wirelessly back to the access point. Great solution for campuses!

Outdoor Wireless Access Points

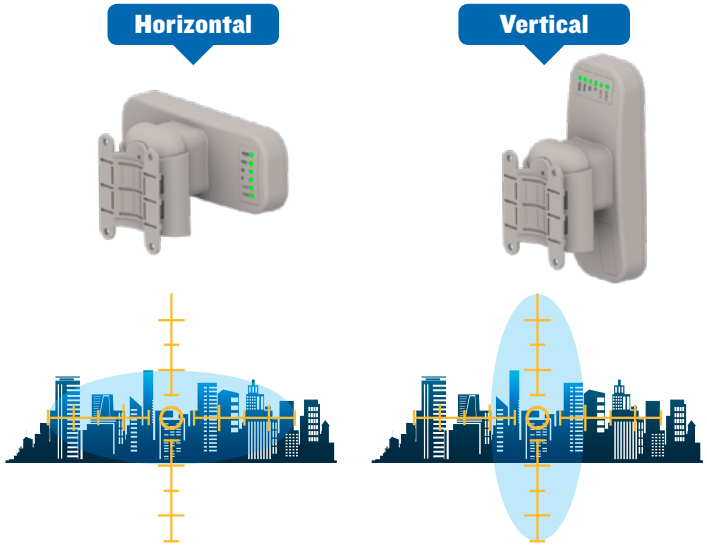
Outdoor 5.8GHz 15 dBi MIMO Wireless Access Point with Optimal Beam Focus

Ideal for short to medium range wireless communication

- 5.8 GHz frequency band
- 802.11 a/n modulation
- 2 x 2 MIMO
- Optimal beam focus feature enables you to fan or restrict the beam depending on your application
- Integrated dual polarized 15 dBi antenna
- 1 mile range line of sight
- IP65 weather rated

SKU	PRICE
WIP5815N-WR	$124.99

Adjustable Orientation



More Outdoor Wireless Access Points

EASY TO CONFIGURE WITH MOST ANTENNAS

» 5 GHz frequency band
» 802.11 a/n modulation
» Easy to configure
» Flexible - use different antennas
» IP65 weather rating
» More channels/less interference

SKU	PRICE

Video Balun

Move video signals across long distances

Smart twisted pair transmission products are designed for CCTV signal transmission over unshielded twisted pair wire (CAT 5 network cable). These smart cabling system transmission are an alternative solution to coaxial and fiber based systems, providing following benefits:

» Fast, easy installation, saving time and money
» Substantial savings on the cost of the cable itself
» Superb quality on long range transmission
